### Greenhill Care Homes Limited

Reducing capacity by 56.5% to deliver an annual saving

Greenhill Care Homes Limited provides 24-hour nursing, residential, intermediate and respite care to residents at its Ilsham Valley Nursing Home site in Torquay.

#### Challenge

Changes in legislation introduced penalties for businesses exceeding their available capacity from April 2018. During a capacity review ahead of the new legislation, we identified that Ilsham Valley Nursing Home's available capacity was set too high. The allocated capacity was 46 kVA, however, the supply had peaked at only 18 kVA within the previous 12 months.

#### Resolution

We determined that the site could have a reduction to 20 kVA, in order to save 26 chargeable kVA per month without meeting any penalty charges. The distributor agreed to the reduction with no additional costs, representing a significant 56.5% saving on the customer's annual spend on capacity.

Bobby Paul  
Technical Director and Co-owner,  
Greenhill Care Homes Ltd

"Our Account Manager has been a STAR as always! We really appreciate how she looks out for us and the annual saving is just amazing."
